Nick,

A sample of the vinyl was sent to our supplier on Friday for custom color match. That usually takes about 2 weeks. We've ask it be hurried as much as possible, but have limited ability to control the timeline for this process.

We can talk more about it at IBBI if you have additional questions.

Thanks,

Marc

Marc,

Good morning. I'm checking in to see how things went with you and Josiah last Friday in checking on timing for color match on the starboard plastic (Nu Lt. Graphite). If there is a plan in place with timing, please let me know.

I will be at the IBBI conference leaving this morning and returning on Thursday – FYI.

Thanks,

Nick Zizzo, MBA, CPSM, CPSD
