Nick,

Here is a quote on touch up bottles;  
#PET.277 1oz. touch up bottles/filled 2.69 ea. 64 min. [all colors]

SDS will need to be developed which will take a couple of days! We will forward those to you as soon as our Environmental person gets them to us.

Thanks,  
Howard

Howard,

Good morning. I just talked to the supervisor and he prefers touchup paint in bottles only. We use a brush here and do touchup that way on the panels.

Can you please provide a quote on the Metallic Platinum and Monaco Blue? Also, would you be able to provide SDS documents on these 2 colors? I will request the same thing once we get the Rosso Red and Metallic Lime approved.

Thanks,

Well you have purchased it various ways so that's why I asked in what format do want it quoted.  
Maybe your people that use it can tell us how they want to use it and then we can get you a quote a.s.a.p.!  
Just let me know and I will send a quote.

Thanks,  
Howard Boardman

Howard,

Would you know how we normally bring in touch up paint? This is my first go-around with 2020 MY so would like to benchmark what we do in the past to get a quote today.

Thanks,

Nick,  
We need to know how you want these quoted? Spray cans or touch up bottle, paint pens  
Let me know and will get you a quote.  
Thanks,  
Howard boardman

**Subject:** FW: Touchup paint Approvals (R-W)

Howard,

I received your information from Scott and told me that I should be communicating with you on anything related between Bennington and R-W. Please see below and attached. We still have to approve touch up paint color matches for a new green and red that is still in process. I spoke to Bob a little this morning and we're still working on providing more information to R-W to help with the efforts.

If you have any questions, please let me know.

Thanks,

Scott/Phil,

Josiah **APPROVED** the new Metallic Platinum and Monaco Blue samples picked up this morning. Photos attached for record. Can you please send an official quote over so we can develop new P/Ns and add in our system?
